EDUCATION

Kanpur Institute of Technology

Bachelor of Technology (Computer Science and Engineering) – CGPA: 8.19 (Up to 6th Semester)

Sep 2023 – Jun 2027

Kanpur, Uttar Pradesh

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend & Mobile: React.js, Next.js, React Native, Expo, Tailwind CSS

Backend & APIs: Node.js, Express.js, REST APIs, Next.js API Routes

Databases & Backend Services: MongoDB, PostgreSQL, MySQL, Supabase

AI & RAG: Gemini AI, Retrieval-Augmented Generation (RAG), Vector Embeddings, Similarity Search

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, MVC Architecture

PROJECTS

Full-Stack Web Development

Letterly (Live) | (Demo Video) | Next.js, TypeScript, Tailwind CSS, Clerk, MongoDB, Framer Motion

- Built an **AI-powered newsletter SaaS platform** enabling users to create, edit, and manage newsletters while supporting end-to-end subscriber lifecycle management.
- Developed an **AI writing assistant, drag-and-drop email editor, and subscriber analytics features**, integrating secure Clerk authentication and MongoDB for persistent application data.

Mystery Message (Live) | (Demo Video) | Next.js, React, TypeScript, MongoDB, NextAuth, Zod

- Developed a **full-stack anonymous messaging platform** enabling users to receive identity-free feedback through personalized, shareable links.
- Implemented **secure authentication, email verification, schema validation, and type-safe API routes** using NextAuth, Zod, MongoDB, and the Next.js App Router.

Mobile Development

ExpoMind (Code) | (Demo Video) | (APK) | React Native, Expo, TypeScript, Supabase, Gemini AI, RAG

- Built an **AI-powered mobile documentation assistant** enabling developers to ask questions about Expo SDK documentation through an interactive React Native chat interface.
- Designed and implemented a **Retrieval-Augmented Generation (RAG) pipeline** using vector embeddings and similarity search with Supabase to retrieve relevant documentation context before generating responses with Gemini AI.

Kribb (Code) | (Demo Video) | (APK) | React Native, Expo, TypeScript, Clerk, Supabase

- Developed a **real estate mobile application** enabling users to browse, search, and save property listings through a modern, responsive React Native interface.
- Implemented **Clerk authentication, Supabase backend services, and role-based access control** to support user interactions and administrator property management workflows.

EXPERIENCE

RK Construction & Co.

Full-Stack Developer Intern

Apr 2026 – Sep 2026

Kanpur, Uttar Pradesh

- Designed and developed a **responsive full-stack company website** from scratch using **React.js, Next.js, and Node.js**, building reusable frontend components and backend REST APIs to establish the company's first professional online presence.
- Implemented **dynamic service and project showcase pages** to improve site usability, performance, and cross-device responsiveness, enabling clients to browse offerings and past work more effectively.
- Collaborated directly with business stakeholders to gather requirements and translate them into technical features, contributing to a **20% increase in customer reach and contract inquiries** while maintaining the live site throughout the internship.

ACHIEVEMENTS

- Received the **IEEE 2023 Medal of Honor** for academic achievement and commitment as an IEEE Student Member.
- Published **2 research papers** in the field of **Artificial Intelligence and healthcare**, including **Artificial Intelligence: Driving the Revolution in Healthcare Through Creative Medical Innovation**, presented at the **5th IEEE International Conference on Computing, Power and Communication Technologies (IC2PCT-2024)**. [DOI]
- Presented the research paper **Artificial Intelligence: Driving the Revolution in Healthcare Through Creative Medical Innovation** at the **National Conference on Computing, Communication, Control, Informatics and Bio-Sciences (NC4IB-2024)**.
